I'm a student of the BSAA. The academy is a peaceful place. Here students can get excellent education in different fields, such as economics, business and law, farm mechanization, land use planning, agronomy and agriculture, accounting, etc. Here I found a lot of friends who can always help you. This is really one of the best universities in the world! I advise all my friends to study here!

Zeeshan (Pakistan, Chakwal. +375255295582)

I study at the academy on the programme "The Belt and Road Initiative". My country sent me here because this university provides high level of teaching for everyone. Specialists of the BSAA are in demand in different fields of agriculture. The atmosphere around the academy is relaxing, students and the academy's staff are very good and tolerant people. I believe the BSAA is a remarkable place for Chinese students and for other foreign students if their goal is to get higher education and to become outstanding and successful people!

Han Wenyuan (China, Hohhot. +375255474615)

City of Gorki is a student town where all is created for students (gym, swimming pool, cinema, an ice palace, botanical garden, etc.). Easy-going atmosphere and help of the BSAA's staff suggest to study well and to lead an interesting student life. I'm very pleased to study here. I recommend it to everyone!
